**INTERNATIONAL INSTITUTE FOR POPULATION SCIENCES
(DEEMED UNIVERSITY)
DEONAR, MUMBAI 400 088**

**FORTY- EIGHTH CONVOCATION
MAY 13, 2006**

It gives me a great pleasure to welcome you all to this auspicious occasion of the forty-eighth convocation of this Institute. The Institute has completed 50 years of its existence and we are celebrating the year 2006 as the Golden Jubilee year of the Institute. On this occasion, we have planned a number of activities like organising international and national seminars and symposiums, cultural and sports activities. Also, renovations of the buildings and campus have been taken up with full force. I am happy to present the report of the International Institute for Population Sciences, Mumbai giving an overview of its activities during the academic year 2005-06.

The Institute since its inception has been conducting one-year certificate/diploma course for trainees from various countries in Asia and the Pacific region. The course was funded initially by the UNESCAP and later on by the UNFPA. Over the years, through this course the Institute has helped in the training of personnel from various countries of Asia and the Pacific region and our alumni currently occupy key positions in the field of population, health and development in government departments and universities in these countries and international organizations. During the past 50 years 2,227 students from 37 countries of Asia and the Pacific region, six from countries of Africa, and one from North America, have

been trained at the Institute. Two tables given in Appendix I furnish country-wise and year-wise number of students who have so far participated in different teaching programmes of the Institute.

The Institute attained Deemed University status in 1985. As a Deemed University, the Institute started giving its own Ph. D. degree since 1986. So far, the Institute has awarded Ph.D. degree to 148 students, including 10 foreign students. From the academic year 1988-89, the Institute started a one-year course leading to the degree of Master of Population Studies (MPS) and the Institute has awarded MPS degree to 301 students. Since 1994-95, the MPS course has also been introduced through correspondence, keeping in view the increasing demand for training in the field of Population Studies. So far 148 students have been awarded MPS degree through correspondence. From the academic year 2002-03, the Institute has started the degree of Master of Philosophy (M. Phil.) in Population Studies. So far 125 students have been awarded the degree of Master of Philosophy (M. Phil.) in Population Studies. The one-year Diploma course in Health Education (DHE) started from August 1987 was renamed during the academic year 2001-2002 as Diploma in Health Promotion Education (DHPE). Until now 341 students have been awarded Diploma in Health Promotion Education.

ACTIVITIES OF THE INSTITUTE DURING THE YEAR 2005-2006

I. TEACHING PROGRAMME

i. Regular courses

During the year 2005-06, the Institute offered four regular courses, of which one was of eighteen months and three were of one-year duration each. These courses are: (a) Diploma in Population Studies (DPS), (b) Diploma in Health Promotion Education (DHPE), (c) Master of Population Studies (MPS)/Master of Philosophy (M. Phil.) in Population Studies, (d) Master of Philosophy in Population Studies. Apart from regular courses, the Institute also offers Master of Population Studies (MPS) through correspondence.

List of students enrolled for all courses and those who are to be awarded degrees/diplomas during 2005-06 are given in Appendix II.

a. *Diploma in Population Studies (DPS)*

The duration of this course is one year, with two semesters. The major emphasis of the diploma course is on imparting technical skills in population analysis and making the students competent in handling and interpreting population data.

In the current academic year four students i.e. two from Kyrgyzstan and two from Vietnam were admitted to the Diploma programme. Three of them are getting UNFPA fellowship and one is enrolled with support from Government of India.

During the year 2005-2006, all four students have qualified for the award of the Diploma in Population Studies.

Dr. Rajiva Prasad is the Co-ordinator for the DPS programme.

b. *Diploma in Health Promotion Education (DHPE)*

This course is of one-year duration. During the current academic year, 20 students were admitted to the course of Diploma in Health Promotion Education. The Family Welfare Training and Research Centre (FWTRC) conducts the course under the auspices of IIPS.

During the year 2005-06, nineteen students have qualified for the award of Diploma in Health Promotion Education.

Dr. S. J. Murthy is the Co-ordinator for the DHPE programme.

c. *Master of Population Studies (MPS)*

The duration of this course is one year. Holders of the master's degree from the recognised universities in the relevant social science subjects are eligible for admission to this course.

During the current academic year, 21 students were admitted to MPS/M. Phil. course. Twenty students were recipients of Government of India fellowship, and one student from Nepal is the recipient of UNFPA fellowship.

Dr. L. Ladusingh is the Co-ordinator for the MPS/M. Phil. programme.

d. Master of Philosophy in Population Studies (M. Phil.)

From academic year 2003-04, a facility has been offered where the top five students of the MPS course can opt for M. Phil. in population studies after further research for a period of six months and submitting a dissertation. Thus the duration of this course is of eighteen months. During the current academic year 5 students were admitted to M. Phil. course. All the students were recipients of the Government of India fellowship. Appendix III (Table C) provides the list of M. Phil. dissertations for students who are to be awarded degree in this year.

During the year 2005-06, all five students have qualified for the award of the degree of Master of Philosophy in Population Studies.

Dr. L. Ladusingh is the Co-ordinator for the M. Phil. programme.

e. Master of Population Studies (Correspondence)

This course is of two years duration, although students have the flexibility of completing it in a maximum period of four years. During the current academic year, 73 students were admitted to this course. In view of the increasing demand, the MPS correspondence course is also open to students from other ESCAP countries.

During the year 2005-06, thirteen students have qualified for the award of the degree of MPS (Correspondence).

Dr. R. K. Sinha is the Co-ordinator for the MPS (correspondence course) programme.

Seminar papers

Towards the end of the second semester, as a part of DPS/MPS/M. Phil. regular course, each student is required to prepare a research paper under the guidance of a faculty member, present and defend it in a specially organized seminar of faculty and students. These papers are later finalised on the basis of discussions in the seminars. The seminar paper constitutes a crucial part of the teaching programme, as it contributes significantly to the development of the research potential of the students. Appendix III (Table A, B and D) provides the list of the topics of the seminar papers presented by the students during the current academic year.

The student whose seminar paper is adjudged to be the best in the MPS/ M. Phil. course is awarded Dr. J. R. Rele Award.

The student, whose over all performance is adjudged to be the best in the MPS/M. Phil. course, is awarded Dr. C. Chandrasekaran Gold Medal.

Study tour

As an integrated part of Diploma in Population Studies (DPS) and Master in Population Studies (MPS) courses students were taken for study tour to get acquainted with the academic and research activities of various institutions. In the academic session 2005-06, students were also taken to NGOs working in health and socio-economic intervention programmes. The three week long study tour was undertaken during February 16 to March 9, 2006. Academic institutions visited in the study

tour include, Centre for Development Studies, Thiruvananthapuram, Institute for Social and Economic Change, Bangalore, Indian Institute of Management, Ahmedabad, Indian Institute for Health Management Research, Jaipur and State Institute of Health & Family Welfare, Jaipur. Non-Government Organizations visited are SAKHI, Thiruvananthapuram, MYRDA, Bangalore, Institute for Health Management Research, Pachod, Self Employed Womens' Association (SEWA), Ahmedabad, Population Council, New Delhi and Indian Association of Parliamentarians on Population & Development, New Delhi. The students were also apprised of Indian Censuses by the Office of Registrar General of India.

The DPS and MPS students were accompanied by faculty guides Dr. Rajiva Prasad and Dr. L. Ladusingh.

f. *Doctor of Philosophy (Ph. D.) in Population Studies*

The Institute has well qualified faculty to guide students for PhD degrees. Students are admitted to the PhD programme on highly competitive basis. First, they are short-listed based on their academic record. They are then asked to present their proposed study. Based on their performance in the proposal presentation, students are admitted to the PhD programme.

Currently 69 students are registered for the Ph. D programme at the Institute. Of them, 13 are recipients of the Government of India Research Fellowship, 7 are recipients of the UGC Fellowship and one is sponsored by ICSSR, and 47 are registered without

fellowship. Appendix II provides the list of Ph. D. students registered in the Institute.

During the year 2005-06, six students have submitted their theses, and one student has completed all the requirements for the award of degree of Ph. D.

Prof. F. Ram is the Co-ordinator for the Ph.D. programme.

ii. *Short-term training programmes*

In addition to the above courses, the Institute conducted the following short-term training programmes during 2005-06.

1. 'Construction of life-table and population projection' for ISS probationers during 24-28 October 2005.
2. 'Demographic analysis' for CRS officials during 7-11 November 2005.
3. 'Demographic techniques,' during 14 November to 2 December 2005.
4. 'Application of qualitative methods of data collection in population research' during 2-20 January 2006.
5. 'Demography' for in-service ISS Officers during 6-10 February 2006.
6. 'Management and control of RTIs and STIs in India' (co-ordinated by Dr. S. Naranjan) during 27 February to 10 March 2006.

These courses were conducted for the ISS probationers, Officers of Registrar General of India and other officials working in Iran,

Nepal, Myanmar, NGOs, and other research officials from universities.

Dr. (Mrs.) Usha Ram is the Co-ordinator of short-term courses.

National seminar

One of the many important activities undertaken by the Institute, as a part of its golden jubilee celebrations, was to organize a three-day national seminar on 'Reproductive and child health and population dynamics' from 6-8 March 2006 at the India Habitat Centre, New Delhi.

The main objective of the seminar was to disseminate the findings of both large-scale surveys and the variety of research undertaken by the Institute to a large audience of policy makers, funding agencies and researchers. Twenty presentations about the findings of completed research projects were made in 12 sessions spread over the three days by the concerned faculty members. There was a panel discussion of experts about the future direction of research that IIPS should take. Under the overall guidance of Prof. P.N. Mari Bhat, a team of four faculty members namely, Prof. M. Guruswamy, Dr. Usha Ram, Dr. Chander Shekhar and Dr.S.K. Mohanty organized the seminar.

II. RESEARCH PROGRAMME

i. Completed projects funded by the Institute

Eleven research projects funded by the Institute were completed by the faculty

during the current academic year. The projects are as follows:

1. Causes of anaemia among women in the eastern region of India (Pls.: S. Unisa, A. Chattopadhyay and T. K. Roy).
2. Issues and barriers in management of family welfare programmes at grass-root levels of Uttar Pradesh (Pls.: R. B. Bhagat and S. K. Singh).
3. Community characteristics, Individual and household attributes and contraceptive use in India (Pls.: G. Rama Rao and S. Niranjana).
4. Returns of fertility decline among uneducated women using contraception in India (Pl.: P. Arokiasamy).
5. Indirect estimation of fertility and mortality measures based on empirical relationship among direct measures of fertility and mortality (Pls.: P. K. Murthy and F. Ram).
6. Consanguinity and its impact on child survival in selected communities in Tamil Nadu (Pls.: C. P. Prakasam and G. Rama Rao).
7. Population, poverty and environment (Pls.: D. A. Nagdeve).
8. Senior citizens in rural Maharashtra- a study of socio-economic and health aspects. (Pls.: H. C. Srivastava, M. Guruswamy, A. P. Deshpande, S. K. Mohanty and S. Niranjana).
9. A text-book on population and development (Pls.: S. K. Mohanty and F. Ram).

10. A statistical and geographical analysis of changes overtime in the religious composition and distribution of India's population: a study at district-level (Pls.: P. K. Murthy and F. Ram).
11. Mapping of causes of death in Greater Mumbai (Pl.: S. Niranjana).

ii. Continuing projects funded by the Institute

In addition to the above twelve completed projects, fifteen research projects are in different stages of completion, which are funded by the Institute. These projects are as follows:

- 1 Workload, time allocation and job satisfaction of the grass root level workers at the PHC, Sub-Centre and ICDS Centres (Pl.: Usha Ram).
- 2 A technique for estimating life expectancies at older ages in destable population: a study based on Indian census age-returns of 1981, 1991 and 2001 (Pl.: S. Lahiri).
- 3 Analysis of maternal, neonatal and infant deaths in Greater Mumbai: investigation through birth & death records (Pls.: S. Lahiri, C. P. Prakasam, G. Rama Rao, and Dr. Dharmapuri Vidyasagar, College of Medicine, Chicago).
- 4 Childlessness in India: causes and consequences (Pl.: Usha Ram).
- 5 Migration in India: an analysis of census data (Pls.: K. C. Das, L. Ladusingh and Chander Shekhar).

- 6 The speed and trend of ageing in India: a regional analysis (1971-1991) (Pl.: H. Lungdim).
- 7 Levels, trends and structure of workforce in India, 1981-2001: a comparative study of pre and post reform period (Pls.: R. B. Bhagat and K. C. Das).
- 8 A study of household amenities in Class I cities of India and its linkages with population (Pls.: Rajiva Prasad, K. C. Das and Kamla Gupta).
- 9 Evaluation of statistical methods for missing data analysis (Pl.: L. Ladusingh).
- 10 Spatial organisation of new and declassified towns of India: 1981-2001 (Pls.: K. C. Das and R. B. Bhagat).
- 11 Food security and health status of tribal and non-tribal populations of Amravati District (Maharashtra) (Pls.: R. B. Bhagat, Sayeed Unisa, D. A. Nagdeve and P. Fulpagare).
- 12 Follow up survey of childless women: a study in Andhra Pradesh (Pl.: Sayeed Unisa).
- 13 Health Inequalities in India (Pl.: P. Arokiaswamy).
- 14 A study of sex preference in relation to infant and child mortality and fertility (Pls.: S. Lahiri, A. Chattopadhyay and R. B. Bhagat).
- 15 Socio-economic and health concerns of elderly in rural Uttar Pradesh (Pls.: Balram Paswan and Chander Shekhar).
- 16 Socio-demographic and economic implications of voluntary retirement scheme at household level: a study in Mumbai urban agglomeration

(Pls.: A. P. Deshpande and C. P. Prakasam).

II (Pls.: Usha Ram and P.N. Mari Bhat).

The Institute has undertaken the following eight new projects during 2006-07.

1. The changing employment situation in major states of India during 1990s: An analysis of census data, 1991-2001 (Pls: M. Guruswamy and S. Niranjana).
2. Unemployment in Northeast India (Pl.: L. Ladusingh).
3. Pattern of urbanization and metropolitan growth in India: 1971-2001 (Pls.: R.B. Bhagat, K.C. Das, P.N. Mari Bhat).
4. Assessment of management and quality family planning services in Bihar and Orissa (Pls.: Rajiva Prasad, C. P. Prakasam and Prakash H. Fulpagare).
5. Migration, population growth and changing demographic scenario in northeastern and eastern India (Pls.: K. C. Das, L. Ladusingh, Rajiva Prasad and P. N. Mari Bhat).
6. Linkages between availability of basic amenities with demographic and health aspects of the population in the EAG states (Pl.: H. C. Srivastava and D.A. Nagdeve).
7. Women's work, health and fertility behaviour in rural Maharashtra: a case study of Bhandara district (Pl.: D. A. Nagdeve).
8. Availability of health facility (including ICDS) and utilisation of RCH services: Evidence from DLHS

vi. Research projects funded by outside agencies

a. Completed

1. End line evaluation of the RTI Sub-project in Nashik, Maharashtra (Pls.: (Mrs.) Usha Ram).
2. ISMH Beneficiaries Covered Under CGHS and Selected Teaching Hospital Attached to ISMH Colleges in Mumbai (Pl.: Usha Ram).
3. POPIN: Population Information and Network (Pl.:C. P. Prakasam).
4. Health system performance Assessment in India for World health report (Pls.: T. K. Roy, M. Guruswamy, P. Arokiasamy, and H. Lungdim)
5. Evaluation of functioning of urban health posts in India (Pls.: Chander Shekhar and F. Ram).
6. Preparing database for human development: strengthening vital statistics at the district level (Pls: F. Ram, Chander Shekhar and S. K. Mohanty).
7. Quality of care in Indian Family Planning Programme and reproductive behaviour of women in four Indian states: A follow up of NFHS-2 (Pl.: R. K Sinha et al).
8. Progress and prospects towards millennium development goals in India (Pls.: F. Ram, S.K.Mohanty and Usha Ram).

9. Assessing women's risk for HIV/STD in marriage in India (Pl.: S. Niranjana).

b. Continuing

1. National family health survey (NFHS) 3

As in NFHS 1 and NFHS 2, the Ministry of Health and Family Welfare, Government of India has appointed the Institute as the nodal agency for NFHS 3. Keeping in view the changing demographic and health scenario of India the scope of NFHS 3 is greatly expanded. The National Family Health Survey-3 (2005-2006) is currently in progress. International Institute for Population Sciences (IIPS) as the nodal agency is responsible for coordinating the project and Macro International, USA is providing the technical assistance. USAID, UNICEF, DFID, the Gates Foundation and UNFPA are funding the NFHS-3. In addition to the collection of information on fertility, mortality, maternal and child health, family welfare and many process indicators NFHS-3 will also provide information on several new and emerging issues such as adolescent reproductive health, high risk sexual behaviour, HIV prevalence for adult men in ages 15-54 and women in ages 15-49. The survey will provide state level estimates of demographic and health indicators by rural urban as well as slum and non-slum dwellers in Chennai, Delhi, Hyderabad, Indore, Kolkatta, Meerut, Mumbai, and Nagpur.

Prof. (Mrs.) Kamla Gupta, Prof. (Mrs.) Sulabha Parasuraman, Dr. P. Arokiasamy

Dr. S. K. Singh and Dr. H. Lhungdhim are the Co-ordinators of the NFHS 3 project.

2. District level household survey under reproductive and child health (RCH) project

The Ministry of Health Family Welfare, Government of India (GOI) is implementing the Reproductive and Child Health (RCH) program in the country. The Government of India is interested in critical evaluation of the program implementation and outcomes. Therefore it was decided to undertake household survey to obtain estimates of programme indicators for all districts in the country, once in two years covering approximately 50 percent of the districts. These surveys are rapid, estimating a limited number of indicators, with focus on the following aspects:

- Coverage of ANC and immunization services;
- Proportion of safe deliveries;
- Contraceptive prevalence rates;
- Unmet need for family planning;
- Men and women's knowledge regarding RTI/STI, HIV/AIDS; and
- Utilization of health services and the user satisfaction.

IIPS, as the Nodal Agency provided the list of PSUs for the districts under contract for the first and second year 1998-99 & 1999-2000 to all the regional agencies. In the first phase 251 districts were covered and in the second phase 254 districts were covered. All the works related to Round I have been completed.

In Round II conducted during 2002-03, 16 agencies are involved in data collection. Fieldwork in all the districts in the country has been completed. In this round, two new dimensions were added: (i) Husbands of eligible women have been interviewed; and (ii) Nutritional status of children below 72 months and adolescent pregnant women has been included.

Key indicators of programme inputs for 565 districts and all states and UTs prepared and submitted to MoHFW and the World Bank.

Facility survey

Simultaneously with household surveys and in the same districts, the Government of India has decided to undertake surveys of selected facilities (PHCs, FRUs, CHS and district hospitals) to assess availability of trained staff, equipment and supplies and their utilization.

The district reports have been submitted. The state level reports and national reports based on the first round survey conducted in 1990 in 272 districts have been completed. The second round of facility survey in remaining districts was completed in 2003. The national report has been published.

The World Bank is providing funding for the survey through Ministry of Health and Family Welfare (MOHFW).

3. Male sexual health concerns and prevention of HIV/STDs in India (Research and interventions in sexual health: theory to action) (RISHTA)

This research attempts to address the *psychological and social-cultural factors* related to male sexual health concerns and sexual risks, including the following factors which are reflected in the project's conceptual model: (a) sense of masculinity, (b) quality of the marital relationship, (c) domestic violence, (d) emotional well-being, (e) risky lifestyle, and (f) cultural norms regarding male-female relationships and roles, sexual practices, marital relationships, risky lifestyle; and cultural beliefs about men's sexual health problems. The project is now in the 5th year and the end line evaluation phase. The project began with the field assessment of sexual health problems as experienced by men in the community. Intensive qualitative and quantitative assessment of health providers (untrained and qualified) and men in the community was done for two years.

As part of community based intervention, the project team worked closely with the community-based organization and developed sexual health education messages using narrowcast media (posters, community gatherings, street drama, and pamphlets) in order to market the Male Health Clinic and the "trained" Ayurveda, Unani, Siddha and Homeopathy (AYUSH) providers through the same mechanisms. In addition, a significant number of education programmes were conducted in all the three communities by the community based organizations and RISHTA team. These activities include street dramas, follow-up meetings, community meetings, opinion leader meetings and Individual consultation and referrals.

The male health clinics established by this project delivered services to more than 1500 men in the last two and half years. Of the total, about half men had sexual health problems. The Ayurveda, Unani, Siddha and Homeopathy (AYUSH) provide also a significant improvement in the clientele and demonstrated improved capacities in treatment procedures. Concurrent evaluation of interventions so far indicate that the male health clinic no doubt a superior model. The next major focus of the project is to make necessary plans in collaboration with community and the health providers for the sustainability of intervention both in the community and provider levels.

Dr. S. Niranjan and Dr. Stephen L. Schensul (University of Connecticut School of Medicine) are the Co-ordinators of the project.

4. Youth in India: situation and needs study

The Institute in collaboration with the Population Council has undertaken a pioneering research to document young people's transition to adulthood in six states namely Andhra Pradesh, Bihar, Jharkhand, Maharashtra, Rajasthan and Tamil Nadu.

The main goal of the study is to provide information on the situation of youth, the live choices available to them. The study aims to provide information on a broad framework of adolescent sexual and reproductive health issues, including both behaviours and their antecedents through a population-based study. Findings are expected to inform

evidence-based programming to address the health and other needs of young people.

Both quantitative and qualitative approaches are used covering behaviours and experiences ranging from schooling to marriage and sexual behaviour. Gender role attitudes and relations with parents will also be studied. The first phase of the project is in progress.

The Pre-Survey Qualitative Phase has been completed in all the six states and the preliminary analysis of the data has also been done. Based on this, survey instruments to be used in the main survey have been developed and have also been pre-tested in all the six states covered under the study. The detailed analysis of the data obtained in the Pre-Survey Qualitative Phase is under way. The main survey is going on in the state of Maharashtra and is likely to be completed by June 2006. The training of the main survey team is completed and the fieldwork has begun in Jharkhand. In Tamil, training of the house listing team for the main survey is complete and the fieldwork for house listing has started.

The funding for this project is provided by the McArthur and Packard Foundations.

Prof. P.N. Mari Bhat, F. Ram, Dr. (Mrs.) Usha Ram, Dr. P. K. Murthy and Dr. S. K. Mohanty are the Co-ordinators of the project.

5. Developing operations research capacity in South Asia for programme managers

The project is undertaken with the objective to develop operation research capacity in reproductive health in South Asia. Under this project, the Institute, Frontiers in Reproductive Health and the Population Council conducted two of the three proposed workshops for participants from South Asia. As a part of this, an intervention study entitled "Enhancement of male involvement/participation in reproductive health (EMIRH)" was operationalized in Ahmednagar district of Maharashtra. The data collection for base line information is completed.

The Population Council, New Delhi is providing funding for this project.

Prof. F. Ram and Dr. Chander Shekhar are the Co-ordinators of the project.

6. Strengthening state plans for human development (SPHD)

The objective of this project are: (1) to prepare a status note on the availability of district level vital statistics for all states of India in consultation with the Directorate of Economics and Statistics, the Office of Registrar General of India and the Department of Health and Family Welfare; (2) to suggest methodologies to estimate various vital statistics at the district level and to conduct workshops to train district level officials and develop a software module to obtain estimates at district level.

The project is currently in planning stage. A thorough review of literature on existing methodologies is being undertaken.

The United Nations Development Programme (UNDP), New Delhi is providing funding for this project.

Prof. F. Ram, Dr. (Mrs.) Usha Ram and Dr. Chander Shekhar are the co-ordinators of the project.

7. Expanding basic maternal and child health services: operational research with birth based approach (IDPAD project)

Based on the theoretical effectiveness of the birth-based approach in promoting maternal and child health and family planning, a project for theoretical data analysis and operational research was undertaken.

The aim was to empirically test the effectiveness of birth-based approach in populations which have high fertility levels through planned programme interventions in selected health centres in generating greater acceptance of family planning methods and contributing to higher impact on fertility. A well-designed operational research project is the core of the study.

The following activities were completed so far:

- (1) A baseline survey of the project area was completed and report finalised.
- (2) A website of the project has been developed (www.birthbaseproject.org).
- (3) A qualitative study of medical and paramedical workers in the project area is completed and report finalised.
- (4) Organised Dai's training to train the traditional birth attendants of project area.

Prof. K. Srinivasan is the Project Director and Prof. C. P. Prakasam is the Co-Project Director.

8. Population Environment Centre

The Ministry of Environment and Forests, Government of India has set up Environmental Information System (ENVIS) Centre at IIPS to collect and disseminate information relating to Population and Environment and Sustainable Development.

During the last year, the Centre has developed databases and is maintaining the web site 'http://www.populationnevis.org' on the topic related to population environment nexus. It has till now also published five Population-Environment Bulletins. The centre has also produced Annotated Bibliography entitled 'Population and Environment in India.' Around 100 citations in full text-format, and 541 abstracts are incorporated in an e-book in CD Media. These bibliography databases are available in the said website in a searchable form. The hard copy of the 'annotated bibliography' is also available with the centre.

In addition, the following population-environment database has been collected and compiled on:

- (1) State wise Demographic, Economic and Environmental indicators, in India, (1996-2001);
- (2) Environment affecting the child health in India, NFHS, 2002;
- (3) Slum and non-slum Population, Sex ratio and Literacy rate by City/Towns, in Maharashtra state, 2001; and
- (4) Sources of drinking water in Maharashtra.

Prof. C. P. Prakasam and Prof. R.B. Bhagat are looking after Population Environment Centre.

In addition to the above projects, the Institute has also taken the following project in collaboration with international agencies.

5. "Alcohol, Sexual Health Risk and HIV prevention in Mumbai" in collaboration with University of Connecticut, USA (PIs: Kamla Gupta, S.Lahiri and S.K.Singh)
6. "First time parent project: end line evaluation" in collaboration with Population Council (F. Ram, R. K. Sinha, Usha Ram and S. K. Mohanty)

III. FACULTY RESEARCH PAPERS/ PROJECT REPORTS

The faculty and other academic staff of the Institute prepared a number of research papers and project reports during the academic year 2005-06. A list of research papers and project reports prepared by the faculty, staff and research students is presented in Appendix IV.

IV. SEMINARS/ CONFERENCES/ WORKSHOPS/ MEETINGS ORGANISED/ ATTENDED AND LECTURES DELIVERED BY THE FACULTY AND RESEARCH STAFF OF THE INSTITUTE

The faculty members and other research staff of the Institute participated in various national and international seminars, conferences and meetings in the field of population and related disciplines held in

India and abroad. Appendix V furnishes the details of such participation by the faculty and other staff members of the Institute. It also includes participation in the workshop and meetings organized by the Institute.

V. FOREIGN VISITS OF THE INSTITUTE FACULTY/ STAFF

Dr. K. C. Das visited the Office of Population Research, Princeton University, New Jersey, United States of America as Mellor Foundation's Visiting Research Scholar during 1 March- 30 June 2005.

Dr. B. Paswan visited East-West Center, Honolulu, Hawaii, U. S. A. to attend the 36th Summer Seminar on 'Evaluation of the impact of reproductive health programmes' during 31 May to 30 June 2005.

Dr. H. Lhungdim visited United States of America to attend the 3rd Summer Institute in Reproductive Health and Development, Department of Population and Family Health Sciences, John Hopkins Bloomberg School of Public Health, Baltimore, Maryland during 16 June- 15 July 2005.

Dr. P. N. Mari Bhat, Dr. H. C. Srivastava, Dr. R. B. Bhagat, Dr. Rajiva Prasad, Dr. P. Arokiasamy, Dr. S. K. Singh, Dr. P. K. Murthy, Dr. S. Niranjana and Mr. Abhishek Singh attended the IUSSP International Population Conference held in Tours (France) during 18-23 July 2005.

Dr. F. Ram visited Geneva to participate in the meeting 'Reproductive health indicators in context of MDGs,' WHO during 20-22 September 2005.

Dr. L. Ladusingh visited Tokyo, Japan to attend the 'National Transfer Accounts Project Workshop,' at Nihon University Population Research Institute during 17-28 October 2005.

Dr. C. P. Prakasam visited China to participate at the International Symposium on 'Quality services in family planning/reproductive health,' Shanghai Institute of Planned Parenthood Research, Shanghai during 14-16 November 2005.

Dr. F. Ram visited Malaysia to attend the Asia-Pacific Conference on 'Sexual and reproductive health in Malaysia' during 17-19 November 2005.

Dr. D. A. Nagdeve visited the Netherlands to participate in a training programme on 'Food and nutrition security, International Agricultural Centre during 12 September to 2 December 2005.

Prof. P. N. Mari Bhat, Dr. P. Arokiasamy and Dr. (Mrs.) Sayeed Unisa visited Singapore to attend the International Conference on 'Female deficit in Asia: trends and perspectives' during 5-7 December 2005.

Dr. S. Lahiri, Dr. (Mrs.) Sayeed Unisa, and Dr. S. K. Mohanty attended the PAA Annual Meeting 2006, Los Angeles, during 31 March – 2 April 2006.

VI. IIPS FACULTY-PhD STUDENTS SEMINARS

The Institute conducts seminars regularly in which the faculty, Ph. D students and other research staff participate. The seminars provide a forum for lively academic debate

and exchange of innovative research ideas in social science research. The speakers for these seminars were invited to give a talk on their on-going research work or on topics of special interest.

Guest lectures

As a part of the IIPS faculty-Ph. D students seminars during the current academic year several scholars from USA, UK, the Netherlands and other Institutes in India delivered lectures at the Institute. Appendix VI provides the list of these distinguished speakers and their lecture topics.

Dr. C. Chandrasekaran memorial lecture

An annual lecture series has been Instituted since 2001-02 in memory of late Dr. C. Chandrasekaran, former Director of IIPS. During the current year, Professor emeritus and former Director of IIPS Dr K. Srinivasan delivered the fifth Dr. C. Chandrasekaran Memorial Lecture on 'Population policies and family welfare programmes in India: A review and recommendations' on 3rd February 2006. The text of the lecture is being published in the IIPS Newsletter.

Dr. R. B. Bhagat organized the Chandrasekaran memorial lecture.

VII. OTHER ACTIVITIES AT THE INSTITUTE

a. World Population Day

The Institute organized a half-day symposium on the occasion of World

Population Day on July 11, 2005. Prof. P. N. Mari Bhat, Director & Sr. Professor of the Institute welcomed the Guest and the Speakers and discussed the importance of the World Population Day. The theme of this year deliberation was "National Rural Health Mission (NRHM)"- launched by the Honourable Prime Minister of India, Dr. Manmohan Singh on April 12, 2005, (known as NRHM) for improving the health of the people with focus on those living in the rural areas and the under-served sections of our society.

On this occasion, Dr. Dileep Mavalankar, a faculty IIM, Ahemdabad and Member, NRHM (Mission Steering Group) spoke on the 'Management Capacity and Management Issues of the Rural Health Program in the Context of NRHM' and Dr. Radhika Ramasubban, an eminent researcher on reproductive health highlighted the role of the NGOs in fulfilling the objectives of NRHM.

Dr. (Mrs.) Usha Ram, Dr. S. Niranjana and Mr. Babu Santosh Kumar organised the symposium.

b. Cultural activities

On the occasion of 'Founders Day,' the Institute celebrated 'Cultural Evening' on 14 August 2005. A cultural programme was also organised on 2 January 2006 to celebrate the New Year Day. The students of MPS/M.Phil., DPS and Ph.D. courses presented variety of cultural programmes representing the diversity of the country.

Dr. K. C. Das organised the cultural programme.

c. Annual sports week

During this academic year, the IIPS Annual Sports Meet was convened during 19th December to 29th December 2005. Number of sports activities comprising both indoor and outdoor games has been organised. Students, staff and faculty participated in the event very enthusiastically. 87 prizes were distributed to the winners of various games on this occasion.

The sports activities were co-ordinated by Dr. H. Lungdim.

VIII. LIBRARY

The Institute maintains an excellent library with most recent books on population and related topics. There are 74279 books, 12551 bound periodicals and 15440 reprints in the library. The library receives about 325 Indian as well as foreign journals out of which 175 journals are received by way of subscription and another 150 journals are received by gift/exchange. The library also receives large number of documents in electronic mode. The library has books on different disciplines such as Demography, Statistics, Public Health, Family Planning, Mathematics, Economics, Sociology, Psychology, Health Education, Politics, Geography, Computer Programming etc. published by Union Government, State Governments, Corporate Bodies, International Agencies and Commercial Publishers of India as well as abroad.

The library provides contents indexing, abstracting, current awareness services, selective dissemination services,

documentation, reference, inter-library loan and xeroxing facilities. Guided computerised search facilities are extended to faculty/students on their topic of research interest. As on date all documents have been computerized.

The library is fully automated in SLIM 21 software and it offers users computerized catalogue search services through the OPAC (Online Public Access Catalogue) through a network of computers in the library as well as on the Institute's website (Web OPAC). The OPAC content *devanagari* script for collection available in *devanagari* script with using Unicode.. Library is centrally air-conditioned. Avirt Gateway Suite software has been installed in the library, which facilitates Internet access to library terminals. All the bound periodical holdings as well as library acquisition list can be located through Institute's website.

The major activities of digitisation of (old) Indian census volumes to explore the INFLIBNET services with introduction of RFID technology will take shape in near future.

Mr. D. D. Mestri, Librarian and Information Officer is the In-charge of IIPS Library.

IX. DATA CENTRE

Data centre at the Institute acquired data sets of Census of 1991 and 2001, National Family Health Survey 1 & 2, RCH (Round 1) and Demographic Health Surveys (DHS) and National Sample Survey (NSS) data on CD-ROM media, which are distributed to the researchers. E-book in CD-ROM media

containing the full papers of DPS/MPS/M.Phil students' seminar has been prepared and six e-books on topics related to reproductive health, child and maternal mortality are also prepared.

At present, the users are directly accessing resources such as Demographic data sets and POPLINE databases, which are stored on server. Further server based software like GIS and OPAC (Library Information) can be accessed through campus network including internet.

Dr C. P. Prakasam is the In-charge of Data Centre of the Institute.

X. HOSTEL FACILITY

The teaching and training programmes at the Institute are fully residential. The Institute has two hostels, which can accommodate 84 students on single occupancy basis. There are 10 air-conditioned rooms, which are generally allotted to the foreign students. We are planning to air condition 12 more rooms in the ensuing academic year. The hostel provides a unique opportunity to the students who come from different parts of India and abroad to socialise among themselves. The students organise cultural programmes and functions on various occasions making their stay comfortable and joyful. The hostel mess provides a variety of cuisines belonging to different cultures of India. There are four cooks, five attendants and two helpers provided by the Institute to run the mess and hostel services. The mess is managed by a student's mess committee assisted by a full

time Hostel House Keeper. The hostel has a full time Hostel Manager who looks after the room services to inmates as well as manages the guest visitors at the Institute. The hostel is overall supervised by a Warden who is a faculty member of the Institute.

Dr. R. B. Bhagat is the Warden of the Hostel.

XI. PUBLICATIONS

IIPS NEWSLETTER

The Institute brings out a quarterly Newsletter, which publishes information about various ongoing activities of the Institute. Two issues covering four numbers of IIPS Newsletters are printed during the academic year 2005-06.

Dr. R. B. Bhagat is the Editor of IIPS Newsletter.

XII. DELEGATIONS AND OTHER VISITORS TO THE INSTITUTE

During the academic year 2004-2005 several academicians and eminent persons visited the Institute. The list of eminent visitors is given in Appendix VII.

XIII. FACULTY & GROUP-A OFFICERS AT THE INSTITUTE

The names of faculty members and other Group-A officers along with their educational qualifications and designations are given in Appendix VIII.

XIV. NEW APPOINTMENTS/ DEPUTATIONS

Major B. V. Ram Kumar has joined the post of Registrar w. e. f. *20th June, 2005.*

Dr. P. N. Mari Bhat has joined the post of Director & Sr. Professor w. e. f. *22nd June, 2005.*

Dr. L. Ladusingh has joined the post of Professor in the Department of Mathematical Demography and Statistics w. e. f. *3rd April 2006.*

Dr. R. B. Bhagat has joined the post of Professor in the Department of Migration and Urban Studies w. e. f. *3rd April 2006.*

Dr. K. C. Das has joined the post of Reader in the Department of Migration and Urban Studies w. e. f. *3rd April 2006.*

Mr. Abhishek Singh has joined the post of Lecturer in the Department of Public Health and Mortality Studies w. e. f. *3rd April 2006.*

XV. RESIGNATIONS/RETIREMENTS

Dr. G. Rama Rao, Professor & Head, Department of Mathematical Demography and Statistics retired on superannuation on *30th June, 2005.*

Shri Dayaram Kuber, Xerox Operator retired on superannuation on *30th November, 2005.*

Shri Ram Abhilash, Peon, retired on superannuation on *28th February, 2006.*

Shri Omprakash Prabhu, Sweeper retired on superannuation on *30th April, 2006.*

XVI. ACKNOWLEDGEMENTS

The Ministry of Health and Family Welfare has continued to provide the basic administrative and financial support to the Institute as in the previous years. I express my sincere gratitude to Dr. Anbumani Ramadoss, the Hon'ble Union Minister for Health and Family Welfare, and President, General Council, IIPS for his keen interest in the activities of the Institute. I am grateful to him for his support and guidance.

I am also grateful to Shri P. K. Hota, Secretary to the Government of India, Ministry of Health and Family Welfare and Vice-President, General Council, IIPS and Chairman of the Executive Council, IIPS and his colleagues for their support to the activities of the Institute. I also acknowledge with thanks the support of various international funding agencies for supporting several of our research and training activities.

I would specially like to mention UNFPA, USAID, WHO, World Bank, Ford Foundation, UNICEF, National Institute of Health, USA and Bill Gates and Packard Foundations. I am also thankful to all the Members of the General and Executive Council of the Institute as well as to the Members of the Standing Finance Committee and the Academic Council as listed in Appendices IX, X, XI and XII for their support and keen interest in the activities of the Institute. I am also thankful to Dr. Umesh Shenoy and Dr. (Mrs.) Rohini Ambekar for providing necessary medical care to our staff and students. Thanks are also due to Shri V. Bhaskaran for providing legal assistance to the Institute.

On this occasion, I acknowledge with gratitude, the co-operation and support extended by all the faculty and staff members of the Institute throughout this year. I am sure that the Institute will not only maintain its reputation but will reach new heights as an Institute of excellence and national importance with the dedicated

efforts of the faculty and staff and with the support from the Government and academic community.

JAI HIND!

Mumbai

Prof. P. N. Mari Bhat

May13 2006 Director & Senior Professor

INDEX TO APPENDICES

- I. Table A: Number of students from different countries trained at the International Institute for Population Sciences from 1957-58 to 2005-06
 Table B: Number of students trained in various courses at the International Institute for Population Sciences during each academic year from 1957-58 to 2005-06

33.	Mr. Rajendra K. Doifode	Prof. (Mrs.) Kamla Gupta
34.	Ms. Sucharita Puraji	Dr. (Mrs.) Sayeed Unisa
35.	Mr. Binod Kumar Singh	Prof. S. Lahiri
36.	Mr. Arup Kumar Das	Dr. S. K. Singh
37.	Mr. Sangram Kishor Patel	Prof. L. Ladusingh
38.	Mr. Digambar A. Chimankar	Prof. R. B. Bhagat
39.	Mr. Atul Ramesh Chandra Gandhi	Prof. (Mrs.) S. Parasuraman
40.	Mr. Pravin SW. Lawande	Dr. Balram Paswan
41.	Mr. Nihar Ranjan Raut	Dr. R. B. Bhagat
42.	Ms. Namrata Agrawar	Dr. (Mrs. Usha Ram)
43.	Mr. Sandip anand	Dr. R. K. Sinha
44.	Mr. Jalandhar Pradhan	Dr. P. Arokiasamy
45.	Mr. Mausumi Garain	Dr. R. K. Sinha
46.	Mr. Rajarama K. E. T.	Dr. R. K. Sinha
47.	Mr. Akash Wankhede	Dr. B. Paswan

II. Students who have submitted Ph. D. thesis during 2005-2006

1.	Mr. Renati Solomon	Prof. Ravi K. Verma
2.	Ms. Paramita Datta	Prof. S. Lahiri
3.	Ms. Nandini Das	Prof. T. K. roy
4.	Ms. Dipti Govil	Prof. F. Ram
5.	Mr. Nigatu Regassa	Dr. A. P. Deshpande

III. Students who are to be awarded Ph. D. degree at May 2006 convocation

1.	Ms. Papiya Guha	Prof. (Mrs.) Kamla Gupta
----	-----------------	--------------------------

APPENDIX III
TABLE A
SEMINAR PAPERS (DPS)

Sr.#	Name of the student	Topic	Guide
1.	Mr. Dinh Nogoc Quy	Changing marriage and family in some regions in Vietnam during Transition	Prof. R. B. Bhagat
2.	Mr. Nguyen Tuan Anh	Some important dimensions of fertility in Vietnam	Dr. S. Niranjana
3.	Ms. Sulaimanova Alina	The role of induced abortion in Attaining reproductive goals in Kyrgyzstan: a study based on DHS, 1997	Dr. Chander Shekhar
4.	Ms. Gulzaada Usupova	Socio-economic correlates of breastfeeding duration in Kyrgyzstan	Prof. L. Ladusingh

APPENDIX III
TABLE B
SEMINAR PAPERS (MPS)

Sr.#	Name of the student	Topic	Guide
1.	Mr. Debabrata Bera	Demographic importance and intentions of third birth	Dr. S. Niranjana
2.	Mr. Diwakar Das	Prevalence of RTI/STI related symptoms and their treatment seeking behaviour in Bihar	Dr. B. Paswan
3.	Mr. Ram Manohar Mishra	Estimation of fertility and mortality: district level census analysis for Rajasthan and Orissa	Prof. F. Ram
4.	Ms. Nandita Saikia	Levels and trends of adult male mortality: application of widowhood method in India and some selected states and districts of Assam	Prof. P. N. Mari Bhat

Contd.

APPENDIX III
TABLE B (Contd.)

Sr.#	Name of the student	Topic	Guide
5.	Mr. Saurav Dey	Changing family planning scenario in India: an analysis of major states	Prof. M. Guruswamy
6.	Mr. Debabrati Sarkar	Development and demographic situation in India: a regional Analysis	Prof. H. C. Srivastava
7.	Ms. Sangeeta Kumari	Profile of Indian women who have experienced abortion	Dr. (Mrs.) Usha Ram
8.	Mr. Protap Mukherjee	Pregnancy complications, outcome and antenatal care in West Bengal: an analysis of RCH data (Round II)	Prof. C. P. Prakasam
9.	Ms. Archana A. Kamble	Migration pattern in selected states in India, 1981-2001	Dr Rajiv Prasad
10.	Mr. Umashankar Majhi	Socio-demographic profile of the Tribal population in Orissa	Dr. A. P. Deshpande
11.	Mr. Manojkumar Raut	Communication and contraceptive Behaviour: insights and evidences from India and Bangladesh	Dr. P. K. Murthy
12.	Mr. Subhasis Saha	Pattern and trends of inter-states migration and its consequences on development	Dr. K. C. Das
13.	Mr. A. B. Sahu	The influence of female age at Marriage on fertility and childloss: a study of selected states in India	Dr. R. K. Sinha

Contd

APPENDIX III
TABLE B (Contd.)

Sr.#	Name of the student	Topic	Guide
14.	Mr. Deepak Bishoyi	Economic inequality in utilisation of reproductive and child health services: a comparative study of Orissa and Bihar	Dr. S. K. Mohanty
15.	Mr. Chayan Roy Chaudhury	A study of quality of single-year Age data of India	Prof. (Mrs.). S. Parasuraman
16.	Mr. Ram Prasad Dhakal	Child bearing and reproductive health care among married adolescent women in Nepal evidence from DHS, 2001	Dr. H. Lhungdim
17.	Mr. Sumeet Kumar	Couples' fertility preferences: a comparative study of Indonesia and Bangladesh	Dr. (Mrs.) Sayeed Unisa
18.	Mr. Lopmudra Ray Saraswati	An assessment of India's fertility level and trend through the estimation of NRR using variable-r approach	Prof. S. Lahiri
19.	Mr. Saurabh Singh	Reproductive morbidity among the rural women in Maharashtra	Dr. S. K. Singh
20.	Ms. Daliya Sebastian	Concordance between couples' reproductive preferences and Future intention to use contraception: a study of West Bengal and Rajasthan	Prof. (Mrs.) Kamla Gupta
21.	Mr. S. Gunasekaran	Child sex ratio trends in south Indian states: a district-wise analysis	Dr. P. Arokiasamy

APPENDIX III
TABLE C
DISSERTATIONS (M. Phil.)

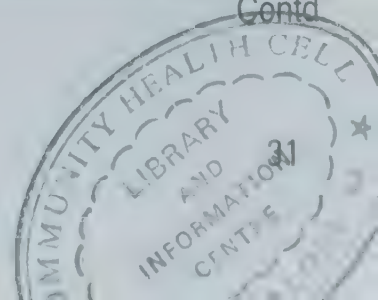

Sr.#	Name of the student	Topic	Guide
1.	Mr. Ravi Prakash	An empirical investigation of Nuptiality pattern in Uttar Pradesh: a district-level analysis	Prof. S. Parasuraman
2.	Mr. Bidhubhusan Mahapatra	Community-level effects on Selected components of MCH in EAG states: a multilevel approach	Dr. Chander Shekhar
3.	Mr. Mahesh Nath Singh	Child care and utilisation of Reproductive health services in Maharashtra	Dr. Rajiva Prasad
4.	Mr. Abhishek Gautam	Regional analysis of infant and Child mortality in Uttar Pradesh and Bihar	Dr. P. Ariokiasamy
5.	Ms. Maitrayee Majumder	Monitoring mortality in Mumbai: levels, trends and estimates with Special reference to adult ages	Dr. S. Niranjana
